

We've got new reviews for dialysis centers coming in every day. We put them on the front page then move them here for a few week so that you can read them at your leisure.

Leaving a review really helps improve dialysis centers - we have many examples of centers improving their facilities and information after receiving constructive feedback.

[Mesogeios Dialysis Center, Crete, Greece](#) 5 star rating

*Trying to find Dialysis on vacation is a nightmare. This centre made everything painless and wonderful. Arranged pickup early morning from my timeshare, the coordinator was extremely helpful and available via her cell phone and the facility is beautiful and well staffed. My wife was able to come to the facility use the wireless and if she wanted use the pool. If your are on dialysis and are looking for a vacation destination consider Crete. **kgould 25 October 2011***

[Banjara Hills Hyderabad India](#) 5 star rating

I attended three session recently, and am accustomed to private and public dialysis units in both Australia and the UK. My principal concern was cross infection. Their procedures were excellent and I felt totally comfortable. Despite paperwork from Australia they did screening tests before I went on the machine, and naturally I came back with no infection. The staff were professional and provided the correct dialyser, Clexane and a lengthy 5.5 hours treatment as requested. Only negative - if you get hungry during dialysis take your own food = but they say that is changing!

I would rate them as highly recommended **Thurless 24 oct 2011**

[Landspitali Iceland](#) 5 star rating

*I have been to this dialysis in 1995, 1997 and this summer. They moved and made everything new. There is more space, TV is new and everything looks very nice. The service and dialysis remained perfect. **Sandrisimmo 17 Oct 2011***

[Dialysezentrum & Gemeinschaftspraxis Scharbeutz, Germany](#) 5 star rating

*I have been here 3 times, last in 2010 and everything was wonderful. Friendly and well organized staff. Lovely small unit mainly for holiday dialysis. I felt like I was visiting friends. I can warmly recommend this unit!!! **Sandrisimmo 17 Oct 2011***

[Imed Levante Benidorm](#) 5 star rating

My vacation was very well because of the service Imed gave me in August 2011! Very nice center with nice and professional personel :) Harald 14 Oct 2011

[St Lucia Dialysis](#) St Lucia

*My wife and I went on a 10 day honeymoon trip to St. Lucia and she had her dialysis performed at this unit. Great staff! My wife also had a bit of the flu hit her on this trip and Tim went out of his way to get us some flu remedies like chicken noodle soup. **Tom G 6 Oct 2011***

[Ospedale Alta Val d'Elsa](#) , Italy

*Tributes must go to Antonio Sidoti R **Numan 3 Sept 2011***

Exeter Kidney Unit (Wonford) UK

My wife dialysed at the Torquay Satellite Unit several times on a recent stay in the West

Country. The pre-treatment organisation was extremely friendly and efficient **A Roberts 22**
