

LAKEWOOD, Colo.--([BUSINESS WIRE](#))-- [Renal Ventures Management, LLC](#) (RVM), a leading provider of dialysis services for patients suffering from end-stage renal disease (ESRD), completed construction of a new hemodialysis center in Flower Mound, Texas, and opened its doors to patients on July 8. Partnering with [North Texas Kidney Disease Associates](#) (NTKDA) to decide on a suitable location for the new center, RVM began construction of the Renal Center of Flower Mound in January 2015.

The Renal Center of Flower Mound, LLC features 13 heated hemodialysis chairs with free WI-FI, personal TVs and a café with coffee for patients. Operating under the supervision of Clinic Coordinator Marissa Dunlap, the center is currently accepting new hemodialysis patients looking for a comfortable, inviting treatment facility.

"We are excited to work with the community of Flower Mound, Texas, by providing high quality dialysis services in this beautiful, state-of-the-art center," said Renal Ventures Management Divisional Director, Tammy Jensen.

The opening of the center has been a well-coordinated effort among senior management, the operations department and third-party companies. The building also includes adjoining office space for the NTKDA nephrology practice.

At the Renal Center of Flower Mound, RVM implemented all of its quality programs, which continue to provide positive outcomes for patients. The programs include the RV Difference™, the framework for RVM's company culture; RV CARE™, which helps patients successfully transition to dialysis during the first 120 days; and RV Kidney Care, which provides ongoing education and support to chronic kidney disease patients.

The Renal Center of Flower Mound is located at 4941 Long Prairie Road, Flower Mound, TX 75028 and on the Web at www.renalcenterofflowermound.com .

About Renal Ventures Management, LLC

Renal Ventures Management LLC is a leading provider of dialysis services in the U.S. The company partners with hospitals and physicians to provide patients suffering from chronic kidney failure with knowledgeable, compassionate and quality-focused care in comfortable clinic settings. For its hospital and nephrologist partners, Renal Ventures Management provides management expertise and patient-focused care operations that center on collaboration, quality and effectiveness. Headquartered in Lakewood, Colo., the company operates 36 dialysis partnerships and 26 inpatient service contracts in six states. They also operate seven infusion centers in two states treating patients with various autoimmune disorders and a vascular access center in Lafayette, Louisiana.
