

DUBLIN--([BUSINESS WIRE](#))--Research and Markets (http://www.researchandmarkets.com/research/699tw6/acute_renal) has announced the addition of the ["Acute Renal Failure \(ARF\) \(Acute Kidney Injury\)-Pipeline Insights"](#) report to their offering.

Acute Renal Failure (ARF) (Acute Kidney Injury) - Pipeline Insights provides the in-depth analysis of the pipeline assets across the Acute Renal Failure (ARF) (Acute Kidney Injury) landscape. The main objective of this report to track competitor pipeline molecules, related research activities, technology, collaborations, in-licensing and out-licensing deals. The Acute Renal Failure (ARF) (Acute Kidney Injury) Report helps to identify emerging players with potentially strong product information and create effective counter-strategies to gain competitive advantage.

Acute Renal Failure (ARF) (Acute Kidney Injury) - Pipeline Insights Report covers the Acute Renal Failure (ARF) (Acute Kidney Injury) pipeline molecules at various stages of development like Pre-registration phases, clinical phases (Phase III, Phase II & Phase I), pre-clinical and discovery phases. The Report also provides Acute Renal Failure (ARF) (Acute Kidney Injury) related therapeutic assessments by molecule type, route of administration, monotherapy and combination products. The Report also highlights the discontinued and inactive projects in pipeline for Acute Renal Failure (ARF) (Acute Kidney Injury).

Scope

- The report provides a Acute Renal Failure (ARF) (Acute Kidney Injury) Landscape across the globe.
- The report provides drug profiles which includes product description, MOA, licensors & collaborators, technology, development partner and chemical information.

- Coverage of the Acute Renal Failure (ARF) (Acute Kidney Injury) pipeline on the basis of target, MOA, route of administration, technology involved and molecule type.

- The report reviews key players involved in the therapeutics development for Acute Renal Failure (ARF) (Acute Kidney Injury) and also provide company profiling.

- Pipeline products coverage based on various stages of development from NDA filings to discovery.

- Provides pipeline assessment by monotherapy and combination therapy products, stage of development and molecule type.
